

LCD718 Chassis Noise Detector with rotary head

DECAR
AUTOMOTIVE EQUIPMENT

- 1.7inch LCD Screen,3 kinds speed, automatic and manual for optional,and English,russian and chinese language selection
- 2.Rotary head for full checking
- 3.Lift weight 4500kg vehicle, 5000kgs load testing!!
- 4.Adopt 2.2kwX2 motor level 6 ,50HZ/60HZ 220v,380v optional
- 5.Professional automotive maintenance /testing equipment production research and development experience
- 6.The equipment has large lifting weight, stable and safe work, solid materials and low noise.
- 7.Quickly help stores to improve the output value of chassis business, good visual effect, differentiated professional testing, to attract more customers to the store.

Max Bearing Capacite	4500KG
Applicable models	Mass 4500kg vehicles
Lift rangs	0-20mm
Working voltage	220V or 380V 50/60HZ 2.2Kw ×2
The highestheight	1050mm
Shake duration	10-46S
Equipment composition	Main worker device * 2 +stress relief device *1 +support frame *2
Working temperature	-10°±50
Net weight	680kg
Packing measurement	130 * 83 * 116 CM * 2PC
